

ANNA V. PROTASIO

avp25@cam.ac.uk – +44 (0) 77 0410 0028

Group Leader in Computational Biology,
Department of Pathology, University of Cambridge.

RESEARCH VISION

The non-coding genome of parasitic flatworms. Using a combination of experimental and computational tools, my overarching aim is to expand our understanding of the roles of non-coding genomic elements in parasitic flatworms with a special focus on transposable elements.

EDUCATION

PhD Molecular Biology, 2012

Christ's College, University of Cambridge UK.

Dissertation: Transcriptome characterisation of cercariae and skin-stage schistosomula in the parasitic helminth *Schistosoma mansoni*.

Supervisors: Dr Matthew Berriman (Wellcome Sanger Institute, UK) and Prof. David Dunne (Dept of Pathology, University of Cambridge, UK).

BSc Biochemistry, 2006

Faculty of Sciences, University of the Republic, Montevideo, Uruguay.

Dissertation: Cloning, expression and characterisation of mitochondrial thioredoxin and thioredoxin peroxidase from the parasitic helminth *Echinococcus granulosus*.

Supervisor: Dr Gustavo Salinas (Faculty of Chemistry, Uruguay).

CURRENT APPOINTMENT

Research Group Leader in Computational Biology

January 2020 – present

Division of Microbiology and Parasitology,
Department of Pathology, University of Cambridge.

PREVIOUS APPOINTMENTS

Research Associate in Bioinformatics,

May 2018 – Nov 2019

Cambridge Institute for Medical Research, University of Cambridge.

Investigated the role of the human silencing complex HUSH in heterochromatin formation ([Douse et al. 2020](#). and the role of HIV vif protein in cell cycle arrest [Marelli et al. 2020](#).

Group Leader: Prof. Paul Lehner and Dr Nick Matheson.

Postdoctoral Research Fellow

May 2016 – April 2018

NCBS-inStem-Cambridge Postdoctoral Fellowship (UK, India)

Using the well-characterised fresh water planarian *Schmidtea mediterranea* (a model organism for the study of stem cell and regenerative biology) to characterise and manipulate the pathways by which non-coding RNAs play their regulatory roles at the organismal level.

Postdoctoral Research Fellow

January 2012 – April 2016

Parasite Genomics Group, Wellcome Sanger Institute, UK

Led the experimental arm of the Parasite Genomics Group at the Wellcome Sanger Institute, running an independent research program studying regulation of gene expression by non-coding RNAs in the parasitic flatworm, *Schistosoma mansoni*. See ([Protasio et al. 2017](#)). Bioinformatic analyses formed a significant component of this project, including processing of small RNA and poly-A enriched RNA-seq samples, reads mapping, read counting and analysis of differential expression.

INVITED TALKS

- Speaker, British Society of Parasitology, Edinburgh, UK** *April 2020*
Session on Flatworm Biology. Postponed.
- Lecturer, Biology of Parasitism, Woods Hole, MA, U.S.A.** *July 2020*
Participation as lecturer in the module of Bioinformatics. Postponed to 2021.
- Speaker, Schistosomiasis Symposium, Minas Gerais, Brazil** *August 2020*
Postponed.
- Speaker, New England Biolabs, Boston, MA** *November 2019*
Title: “Transposable elements in platyhelminthes”
- Invited speaker, Genome Science 2019, Edinburgh** *September 2019*
Title: “Parasites within parasites: transposable elements in platyhelminthes”

AWARDS

- 2020 Research Fellow in Animal Parasitology, Christ’s College, University of Cambridge (start Jan 2021)
- 2020 Departmental Fellowship, Computational Biology, University of Cambridge.
- 2019 Travel award. Newton Fund Researcher Links Bilateral Workshop, Fudan University, Shanghai.
- 2017 Darwin College Research Affiliation.
- 2015 NCBS-inStem-Cambridge Postdoctoral Fellowship.
- 2012 Japan Society for the Promotion of Science Postdoctoral Fellowship.
- 2012 First prize poster competition, Molecular and Cellular Biology of Helminth Parasites.
- 2010 Travel, tuition and expenses Biology of Parasitism course.
- 2007 Wellcome Trust Sanger Institute 4-year PhD scholarship.
- 2007 Honorary Cambridge Overseas Trust Scholar.
- 2005 First Prize, Sanger Prize Competition (full paid internship).

TEACHING

- Course co-director, Undergraduate Degree in Infectious Diseases** *2020-2021*
Institute for Continued Education, University of Cambridge.
Parasitology Unit lead organiser, plan and deliver synchronous / asynchronous materials and sessions.
- Creator and Organiser [Helminth Bioinformatics](#)** *various dates 2019 – 2021*
Wellcome Genome Campus Advanced Courses, UK
Principal applicant, content lead and lead instructor for a 5-day residential course funded by Wellcome Advance Courses in helminths genomics, transcriptomics and bioinformatics. University of Accra, Ghana (September 2019), Thailand (2020) and Uruguay (2021).
- Guest lecturer (Parasitology) Dept of Pathology, University of Cambridge** *2019-2020*
Lectures: “Trematode biology” and “Tapeworm biology”.
- Lead Educator and Content Developer for Online Courses** *February 2017 – August 2019*
Wellcome Genome Campus Advanced Courses and FutureLearn, UK.
Worked collaboratively with project managers and led a group of instructors in developing syllabus, contents and presentation of three online courses on **bacterial genomics and bioinformatics** covering: i) [From DNA to protein function](#); ii) [Accessing and analysing bacterial genomes](#); iii) [Comparative genomics](#).
- Course Instructor** *various dates 2008 – 2018*
Wellcome Genome Campus Advanced Courses – Working with Pathogen Genomes.
Work as part of a team of instructors in charge of candidate selection, course planning, course delivery and supervision of students. This is an annual residential course in bioinformatics that takes place in Uruguay and the UK.

PUBLICATIONS

A total of 22 peer-reviewed publications, one preprint, one invited review and one book chapter.
 h -index = 11 (source: [Scopus](#)).
